- Excel filling for standard reports for authorizes user

## ACCOUNTS

- Voucher and receipt entry
- Advance and unsettled advance ledgers
- Cash book and bank book reports, ledger wise report and excel filling option
- Operate multiple banks

### **K2 MMS Remote** access for getting

information over internet VPN(Virtual Private Network) connection. View the stock report, selecting day party, assigning task to a employee. This saves you a lot of time in getting data and taking suitable course of action rather than spending your time in collecting data and then acting on to it

### **K2 MMS SECURITY** understands the

importance of critical and confidential data of any institution, thus K2 MMS has role based security system, which allows the management to define the roles, their access. Users can be grouped under these roles, which mean selective people have access to selective menu options.
