

Vision 2020

KSMART SCHOOLS & COLLEGE MANAGEMENT SYSTEM

Our Mission: - Integrate basic human values with core of Management & Technology, with utmost care for the educational institute's requirements, which serves true value for money and provides always a better and cost effective solution with integrity.

- **Comprehensive student records management – From the time of registration till the time of student leaving the school.**
- **Academic Performance Evaluation for Students throughout Sessions**
- **It makes communication between students & teachers, and teachers & parents easy, as teachers can send sms or mail to the parents regarding student's activities etc.**
- **World class solution for school management with Web-reporting**
- **By just putting marks/grades/remarks in the software get customized progress report card with marks/grades/marks & grades/remarks, class rank, attendance, etc.**

KSMART ADVANTAGE

KSMART SEARCH for students from the entire database of school students about their details of class, academic record and can even drill down to his financial dues. This saves you a lot of time in getting data and taking suitable course of action rather than spending your time in collecting data and then acting on to it.

KSMART SECURITY understands the importance of critical and confidential data of any institution, thus KSMART has role based security system, which allows the management to define the roles, their access. Users can be grouped under these roles, which mean selective people have access to selective menu options.
